

Spring 2026

Dear Coaches and Managers,

We are looking forward to your upcoming picture day. Please have your team to arrive 15 minutes prior to your scheduled time for picture day. Our coach check-in tent is the black tent at your specified field (with the coach check-in sign). Please have a representative for your team check-in as soon as you arrive or if you are going to be late, please appoint someone to check in for you. Please **do not wait** for your entire team to arrive. We always take individual photos first, and then team pictures. Further instructions will be given to you at this time.

Your team's safety is our #1 priority. We practice very strict bat safety in our photo area. We ask that the coach pick **one** bat per team to bring for photo. If a player really wants a picture with a specific bat, we will ask that the coach be responsible for any extra bats brought into the photo area. Please ask that all extra bats, water bottles and belongings are piled up in an area out of the way of where teams are gathering, or belongings are returned to the players' parents before entering the photo area.

Coach pictures (with their child) will be taken at the same time as the players' individual photos, no paperwork required. Please ask our friendly team check-in staff what exactly is provided by your league. Please make sure that you remember to take this photo before you finish at the individual camera station. This is prior to moving to a group camera station.

If you have any questions prior to picture day, please feel free to email me at amber@mmakers.net

Thank you, and we look forward to taking your pictures.
